

## **SPORTS TOTO MALAYSIA SDN. BHD.**

(Company No : 8420-D)

**PRESS RELEASE**  
**28 JANUARY 2020**

### **SPORTS TOTO ATTAINS INTERNATIONAL ACCREDITATION FOR INFORMATION SECURITY MANAGEMENT SYSTEM**

Sports Toto Malaysia Sdn. Bhd. (Sports Toto) is pleased to announce that it has attained the World Lottery Association (WLA) Security Control Standard:2016 (WLA-SCS:2016) certification in December 2019.

The WLA's certification is the only internationally recognised security standard for number forecast operators worldwide.

The accreditation demands the company to meet the requirements of ISO/IEC 27001:2013, a leading international standard for information security management, with additional lottery-specific security controls representing current best practice.

The accreditation also signifies that Sports Toto has met the stringent requirements of the international standard for establishing, implementing, maintaining and continually improving its Information Security Management System (ISMS), together with additional security requirements set forth by the WLA, including lottery-specific security and integrity controls.

"We are proud to have attained the WLA Security Control Standard as we strive to create a safe and secure business environment.

"We will work tirelessly to maintain the standard as well as the trust and confidence bestowed on us by our stakeholders and customers," said Sports Toto Malaysia Sdn. Bhd. Executive Director Mr. Vincent Seow.

The accreditation assessment of Sports Toto's main operations for both WLA-SCS:2016 and ISO/IEC 27001:2013 was conducted by an independent international certification body.
